docufide receiver™

FOR HIGHER EDUCATION
Request, Receive, Analyze

Docufide® Receiver provides a web-based (SaaS) solution for postsecondary institutions to request, receive and analyze electronic transcripts. The solution reduces the cost and effort of receiving and processing education records without disrupting existing admissions application processes.

Fully secure and FERPA compliant, Docufide Receiver connects you to a broad network of Docufide Senders for streamlined electronic transcript exchange and direct transcript request (from students and other institutions).

Docufide Receiver enables school administrators to translate credentials data into intelligence to improve recruitment and compare against peer institutions.

Transform academic transcripts into critical data to improve matriculation and graduation rates.

Docufide Receiver is available in Full and Limited license models.

Docufide Receiver (Full License): Robust functionality including automated data integration with your SIS or CRM system, and data analysis and benchmarking.

Docufide Receiver (Limited License):
FREE basic functionality, including online access to electronic transcripts for download and reporting.

The Docufide by Parchment Platform

Docufide Receiver is a key component of Docufide® by Parchment, the leading transcript exchange and intelligence platform. The Docufide by Parchment platform connects senders and receivers, enabling the secure, rapid exchange of millions of electronic transcripts and other student records among nearly 9,000 schools and universities, eight state education agencies, and hundreds of thousands of individuals.

Choose Docufide Receiver to:

- Dramatically reduce application processing time.

- Enhance applicant experience by integrating transcript processes into your online application.

- Automate the delivery of transcript data into your CRM or imaging system, and leverage it to improve applicant assessment and yield.

- Analyze applicant and transcript data to improve student recruitment and compare against peer institutions.

- Eliminate costly and time-consuming processes by bringing the receipt and analysis of transcripts completely online.

docufide® by parchment™ | The Leading Transcript Exchange & Intelligence Platform

Docufide Receiver streamlines transcript request and release processes with features and capabilities such as:

- **Easy Online Access:** Download transcripts and other admissions documents via the Docufide web interface.

- **Reporting:** Gain insight into transactional information such as number of transcripts received over selected time periods.

- **Automated Workflows:** Receive Index file(s) with prepared transcripts and admissions documents for automated data import into your SIS or enterprise content management system.

- **Manage Transcript Requests:** Automate transcript collection and get applicant permission to request on their behalf.

- **Multiple Data Formats:** Take advantage of flexibility in receiving transcripts as PDF, TIF, or data (PESC XML or SPEEDE EDI).

- **Secure Private Institutional Library:** Easily retrieve and analyze all past transcripts via your private archive library.

- **Auto Delivery (SFTP/Web Services):** Auto-receive transcripts to an FTP location in place of manual downloading.

- **eCommerce:** Opt to cover transcript transaction fees according to your institution's payment policies.

- **Role-based Security:** Control access by defining appropriate security levels by user groups.

- **Email Notifications:** Inform system users when documents are available for download.

- **Credentials Verification:** Trust that all institutions registered on the Docufide network are proven senders of official education records.

More than 1,400 colleges and universities use Docufide Receiver to securely capture transcript data from hundreds of thousands of students.
